TERMS AND CONDITIONS

- Your asset rebalancing election will include both your variable investment options and the GIO only if you elect Option II. We will transfer amounts among your variable investment options and the GIO to arrive at the allocation percentages in Section 5 on each rebalancing date. If you elect Option I, then only your variable investment options will be included in your asset rebalancing calculation; in order to reallocate the amount in the GIO, you must transfer amounts in or out using TOPS or Online Account Access.
- Asset Rebalancing does not allow you to include only a portion of your variable investment options or only a portion of your balance in the GIO. If you elect Option I, we will include your entire balance in the variable investment options, and none of your balance in the GIO, to arrive at the allocation percentages in Section 5. Similarly, if you elect Option II, we will include your entire balance in the variable investment options and your entire balance in the GIO to arrive at your allocation percentages.
- Asset Rebalancing does not affect your allocation for future contributions.
- Asset Rebalancing is not available for balances in the Structured Investment Option and Fixed Maturity Options (FMOs).
- If you request a transfer while the rebalancing program is in effect, we will process the transfer as requested; the rebalancing program will remain in effect unless you request that it be canceled in writing.
- Option II cannot be elected if the Investment Simplifier Option has been elected.
- Asset Rebalancing does not guarantee a profit or protect against loss in a declining market.
- We reserve the right to limit allocations and transfers into and out of the GIO.
- For your protection, California law requires the following to appear on this form. Any person who knowingly presents false or fraudulent information to obtain or amend insurance coverage or to make a claim for the payment of a loss is guilty of a crime and may be subject to fines and confinement in state prison.
