Withdrawing your money

During the 6 contract years following each contribution — Access up to 15% of the account value each contract year free of withdrawal charges. If more than 15%, the withdrawal will be subject to a Contingent Withdrawal Charge (CWC). The SECURE Act allows withdrawals of up to \$5,000 by the participant to cover expenses of childbirth or adoption, free of the 10% penalty.

Contingent Withdrawal Charge — On withdrawals of contributions (above the free withdrawal amount) that have been in the contract fewer than 6 contract years.

Withdrawals and distributions of taxable amounts are subject to ordinary income tax and, if made prior to age 59½, may be subject to an additional 10% federal income tax penalty.

Withdrawal charges may be waived under certain circumstances. See the prospectus for details.

- Dollar Cost Averaging
- Asset Rebalancing
- Automatic Investment Option
(not available for Inherited IRA)
- Successor Owner/Annuitant
(not available for Inherited IRA)

Optional feature at an additional annual charge: Ratchet Death Benefit — This feature is available at issue only and cannot be terminated. Charge is 0.15% of account value on the contract date anniversary. See the reverse side of this fact card for details.

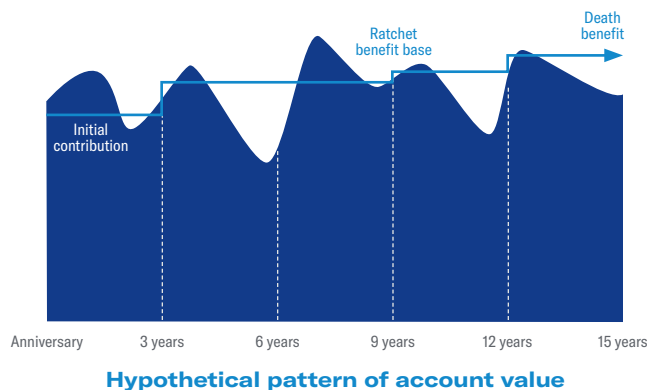

Ratchet Death Benefit

Potential additional protection is available through the optional Ratchet Death Benefit, where the death benefit increases every 3 years to the account value (if higher) on your contract anniversary. The Ratchet Death Benefit starts with the amount of your contributions and, once it attains a new high, will stay the same or go up (it cannot be reduced except by withdrawals).

This death benefit will “ratchet up” to its highest value until age 85. The Ratchet Death Benefit is available for issue ages up to 75 for an additional annual charge of 0.15% of the account value, which is deducted on the contract anniversary.

Important note

The Ratchet Death Benefit is an optional feature, available for an additional fee, that can be elected only at issue. Withdrawals will reduce your death benefit in direct proportion to the percentage the annuity account value was reduced. The amount of the reduction can be greater or less than the actual withdrawal amount.

Important considerations

A variable deferred annuity is a long-term financial product designed for retirement purposes. In essence, an annuity is a contractual agreement in which payment(s) are made to an insurance company, which agrees to pay out an income or a lump-sum amount at a later date. There are contract limitations and fees and charges associated with variable annuities, which include, but are not limited to, mortality and expense risk charges, sales and withdrawal charges, administrative fees and charges for optional benefits. Amounts in the annuity's variable investment options are subject to fluctuation in value and market risk, including loss of principal. Contact a financial professional for costs and complete details.

If you are using an EQUI-VEST® annuity contract to fund an individual retirement account (IRA), you should do so for the annuity's features and benefits other than tax deferral. For such cases, tax deferral is not an additional benefit of the annuity. You may also want to consider the relative features, benefits and costs of this annuity with any other investment that you may have in connection with your retirement plan or arrangement.

This summary is not a complete description of all material provisions of the contract, and must be preceded or accompanied by a current EQUI-VEST® variable deferred annuity prospectus and any applicable prospectus supplements, which contain detailed information about the EQUI-VEST® contract, including investment objectives, risks, charges and expenses. Please refer to your prospectus or contact your financial professional or the company for another copy at no cost or obligation. You should read the prospectus and consider this information carefully before you invest further or send money. Certain types of contracts, features and benefits may not be available in all jurisdictions.
