

Retirement Cornerstone® Series CP® Features

The RETIREMENT CORNERSTONE® VARIABLE ANNUITY is a multistage annuity built to adapt to an investor's changing needs. Thanks to advantages like **3% credit on contributions** and a **5% bonus on gains**, Retirement Cornerstone® Series CP® may help investors reach their retirement goals quicker.

Key Features of Retirement Cornerstone® SERIES CP®

- **3% Match on Contributions***
Receive a 3% match on initial and ongoing contributions. The 3% credit will be added to the Annuity Account Value (AAV).
- **5% Earnings Bonus*** A bonus will be added to the Annuity Account Value (AAV) that is equal to 5% on gains in excess of the account value peak (or the new high water mark). See page four for details on how the account value peak, or highest water mark, is calculated.

It takes more than a single solution to overcome the challenges of saving for retirement. That's because an investor's needs and goals may change over time. Retirement Cornerstone® is the multistage annuity that adapts to an investor's changing needs. This innovative strategy was designed with built-in flexibility for every stage of retirement. When investors are ready, they can seamlessly transition from growth potential to guaranteed income¹ and protection for their loved ones,² all in one place.

While no two retirement investors are alike, many could benefit from an extra push toward their retirement goals. Retirement Cornerstone® Series CP® offers a 3% match on contributions, as well as a 5% bonus on gains in excess of the account value peak.

A Strategy for Your Future

Retirement Cornerstone®'s two accounts help investors work toward their retirement goals by not only building retirement assets, but protecting them, too.

Guaranteed lifetime income

Rising income potential

Built-in spousal protection³

Legacy planning to protect loved ones

Tax-smart investing

Access to well-known investment managers

Retirement Cornerstone® variable annuity is a long-term retirement product that lets you invest for growth potential on a tax-deferred basis. In essence, an annuity is a contractual agreement in which payment(s) are made to an insurance company, which agrees to pay out income or a lump-sum amount at a later date. Retirement Cornerstone® provides guaranteed benefits through optional riders, available for an additional fee: The Guaranteed Minimum Income Benefit (GMIB), to protect retirement income; and the Guaranteed Minimum Death Benefits (GMDBs), to protect the death benefit value.

Important Note

AXA believes that education is a key step toward addressing your financial goals, and we've designed this material to serve simply as an informational and educational resource. Accordingly, this brochure does not offer or constitute investment advice, and makes no direct or indirect recommendation of any particular product or of the appropriateness of any particular investment-related option. Your needs and circumstances are unique, and they require the individualized attention of your financial professional. But for now, take some time to learn more.

Variable Annuities: • Are Not a Deposit of Any Bank • Are Not FDIC Insured
• Are Not Insured by Any Federal Government Agency • Are Not Guaranteed by Any Bank or Savings Association • May Go Down in Value

Variable annuity products are issued by AXA Equitable Life Insurance Company (NY, NY).
Co-distributed by affiliates AXA Advisors, LLC (member FINRA, SIPC) and AXA Distributors, LLC.

Important Information

* Age limitations and restrictions may apply. See “Credit and Earnings Bonus” for more details.

1. Through the Guaranteed Minimum Income Benefit (GMIB) rider, available for an additional fee. Taking an excess withdrawal will affect the income amount. Please see the prospectus for more details.
2. Through the Guaranteed Minimum Death Benefit (GMDB) rider, available for an additional fee. Taking an excess withdrawal will affect the death benefit base. Please see the prospectus for more details.
3. Subject to age restrictions.

Retirement Cornerstone® contains two distinct accounts: The Investment Account, offering more than 100 investment portfolios from well-known investment managers; and the Protected Benefit Account, offering investment portfolios to fund the GMIB or the GMDBs. As your needs change, transfer assets from the Investment Account to the Protected Benefit Account. Transfers from the Protected Benefit Account to the Investment Account are not allowed. For information on transfer limitations, please see the prospectus.

There are contract limitations, fees and charges associated with variable annuities, which include, but are not limited to, operations fees, sales and withdrawal charges, administrative fees and charges for optional benefits. For costs and complete details of coverage, speak to your financial professional. The variable investment options will fluctuate in value and are subject to market risk, including loss of principal.

Purchase Guidelines	
Initial Minimum Contribution Amount	\$10,000
Subsequent Minimum Contribution	\$500: Non-Qualified, QP and SEP \$50: Traditional IRA and Roth IRA
Maximum Contribution	\$1.5 million; the maximum contribution applies to the total held by the same owner or annuitant. Certain restrictions may apply. Please see the prospectus for details.
Contribution Limitations	Contributions to the Protected Benefit Account are not permitted after the earlier of the date of first withdrawal from the Protected Benefit Account or through age 68 or 70 (or if later, the first contract date anniversary). Maximum contribution age to the Investment Account is 70. If RMD Wealth Guard is elected, maximum contribution age to the Protected Benefit Account is 68.
Issue Ages	
After-Tax Contributions (Non-Qualified Contracts):	0-70
Traditional IRA, Roth IRA:	20-70
SEP:	20-70
Qualified Plans: (Defined Benefit, Defined Contribution)	20-70
Uniform Gifts to Minors Act (UGMA) or Uniform Transfers to Minors Act (UTMA):	0–18 Ages are available for contracts with custodial owners under the Uniform Gifts to Minors Act (UGMA) or the Uniform Transfers to Minors Act (UTMA). May vary in some states.
Contract Fees	
Total Annual Contract Fee	1.65%
Operations	1.05%
Administration	0.35%
Distribution	0.25%
Annual Administrative Charge	Lesser of 2% of the Annuity Account Value or \$30 for the first 2 contract years, then \$30 each year thereafter; waived if account value exceeds \$50,000.
Investment Options	
Protected Benefit Account Variable Investment Options	Investments in underlying portfolios are used to fund guaranteed benefits. Amounts allocated to these investment options are part of the Protected Benefit Account Value. Please note that the investment options available in the Protected Benefit Account are also available in the Investment Account (described below).
Investment Account Variable Investment Options	Investments in underlying portfolios and amounts allocated to these investment options are part of the Investment Account Value. Investing in the Investment Account does not fund the optional benefits.
Guaranteed Interest Option (GIO)	Part of the General Account and credits interest at guaranteed rates. No more than 25% of the total AAV may be allocated to the GIO. Amounts allocated to the GIO are part of the Investment Account and are not included in the Protected Benefit Account Value. Not available in New York.
Underlying Portfolio Fees	
Portfolio Operating Expenses	In the Protected Benefit Account, the gross underlying expenses (without waivers and reimbursements) range from 0.98% to 2.46%. The net expenses range from 0.95% to 1.20%. In the Investment Account, the gross underlying expenses (without waivers and reimbursements) range from 0.58% to 2.60%. The net expenses range from 0.58% to 2.02%.

Expense Calculations	Expenses are calculated as a percentage of the average daily net assets invested in each underlying variable investment portfolio. Current charges may be different from those listed in the Portfolio Operating Expenses. Net Annual Expense is simply the Gross Portfolio Expense minus the fee waivers and/or expense reimbursements. The Net Expense is most likely what you can expect to pay in a given year for the respective portfolio. Refer to the trust prospectus and related supplements for more portfolio-specific expense information.
Credit and Earnings Bonus	
	<p>We allocate a credit to the Account Value (AV) at the same time we allocate the contributions. There is an up-front flat rate credit of 3% on contributions.</p> <p>There is also an Earnings Bonus applied on any anniversary the contract reaches a new high water mark, called the Account Value Peak. When this Account Value Peak occurs, we will add an additional bonus to the AV equal to 5% of the AV gains over the previous Account Value Peak. The Account Value Peak is then reset to include the Earnings Bonus and is not reduced for withdrawals. There is no recovery of Earnings Bonus.</p> <p>The Earnings Bonus will be allocated across the Protected Benefit Account Value and the Investment Account Value in proportion to the investment in those accounts as of the contract anniversary. It will then be allocated according to the instructions on file for each account. Any subsequent contributions, including the credit on these contributions, are added to the Account Value Peak but neither the credit on contributions nor the Earnings Bonus is included in the GMIB/GMDB benefit bases unless a ratchet or reset occurs on a subsequent anniversary.</p> <p>A portion of the Contingent Withdrawal Charge (CWC) and Annual Contract Charges is used to help recover the cost of providing the credit. The charges associated with the credit may, over time, exceed the sum of the credit and related earnings. Therefore, if the contract is held for an extended period of time, purchasing a contract that does not include a credit should be considered. Please refer to the prospectus for additional information on how the credit is applied to contributions in subsequent contract years.</p>
Contributions	Credit
Up-front credit on contributions	3%
Earnings bonus	5%
Standard Features (At No Charge)	
Spousal Continuation	Available for IRA & NQ only. For contracts that are jointly owned by spouses or for a single-owner contract with a sole spouse beneficiary, in the event of the death of one spouse, the surviving spouse can elect to continue the contract subject to certain conditions.
Beneficiary Continuation Option	Allows for a legacy for beneficiaries. If beneficiaries do not wish to receive a lump-sum payout, beneficiaries can keep amounts invested in the annuity contract while taking required distributions over a life expectancy period, which will spread the tax consequences over the distribution period. The Protected Benefit Account is not available as part of the Beneficiary Continuation Option, and therefore the GMIBs and GMDBs are not available either.
Special Money Market Dollar-Cost Averaging (DCA)	DCA allows an investor to make systematic transfers from the Special Money Market DCA Account into the selected investment options, and may allow for a lower average per share price than if a fixed number of securities for each periodic interval was purchased. 100% of contributions must be allocated to the Special Money Market DCA account. Funds will then be automatically transferred via Special Money Market DCA into the GIO (if applicable) and variable investment options from the Special Money Market DCA account. Any amounts allocated to the Special Money Market DCA account that are designated for transfer into the Protected Benefit Account are included in the benefit base for any elected optional benefit.
Systematic Transfer Programs	AXA Equitable offers automatic programs that transfer funds from the Investment Account to the Protected Benefit Account on a quarterly, semiannual or annual basis. The transfer programs can allow you to sweep gains, sweep a specific dollar amount or sweep a specific percentage to the Protected Benefit Account investment allocations that you have on file.
Guaranteed Minimum Income Benefit in Protected Benefit Account (Additional Charge)	
Issue Ages	Single owner issue ages: 20-70 (minimum age to fund GMIB is age 50) Joint owners issue ages: 50-70 (both owners)
Annual Fee	1.25% (max 2.50%) of benefit base deducted from the Protected Benefit Account Value on each contract anniversary. AXA Equitable has discretion to change the current fee after the first 2 contract years but it will never exceed the maximum fee. The Guaranteed Minimum Income Benefit can be dropped without penalty if the fee increases or the benefit can be exercised.
Description of Benefit	GMIB guarantees lifetime payments when you annuitize the GMIB Benefit Base after the specified waiting period. The GMIB Benefit Base is used to determine your lifetime payments upon exercise of the benefit and to determine the Annual Withdrawal Amount. The GMIB Benefit Base is not a cash value. The "benefit base" is used to calculate a minimum guaranteed income amount, or a maximum withdrawal that won't reduce the benefit base. The benefit base is equal to the total amount of contributions and transfers into the Protected Benefit Account investment options and increases annually at a specified rate, called a Roll-Up Rate, during the GMIB Roll-Up Period. At the contract anniversary each year, if the Protected Benefit Account Value is more than the benefit base, you have the opportunity to "reset" the benefit base to the level of the Protected Benefit Account Value.
Roll-Up Rates	<p>The GMIB is issued with a Lock-in Rate at the contract date that will never be less than 5% for the first seven contract years. Beginning with the eighth contract year, the Roll-Up Rates are derived from preset formulas tied to the 10-Year Treasury and are declared quarterly.</p> <ol style="list-style-type: none"> 1. Deferral Roll-Up Rate — is equal to the 10-year Treasury Rate + 2% and the minimum Roll-Up Rate will be between 5% and 8%. 2. Annual Roll-Up Rate — if you decide to withdraw from the Protected Benefit Account, including Required Minimum Distributions (RMDs), this formula rate is equal to the 10-year Treasury + 2% and will be between 5% and 8%. <p>The Roll-Up Rates continue for the duration of the GMIB Roll-up Period which is to the earlier of the 20th contract anniversary from when the Protected Benefit Account was initially funded, and the contract date anniversary following the owner's (older owner or annuitant if applicable) 95th birthday. Beginning with the eighth contract year, Roll-Up Rates are effective for one contract year at a time and are renewed each contract year. AXA Equitable reserves the right to set the declared rate on a more frequent basis.</p>

Annual Reset Options	The Annual Reset feature offers the opportunity to elect resets on each contract date anniversary up to age 95 (age 80 for the "Greater of" GMDB) if the Protected Benefit Account Value is higher than your benefit base. A reset may initiate a new waiting period of up to 10 years to exercise your GMIB but not later than age 95. We offer three programs: a one-time reset, an automatic annual reset and a customized reset program. If you elect the GMIB, you will be enrolled in the automatic reset program at the time of application unless a different reset option is selected.
No-Lapse Guarantee	Assurance, subject to restrictions, of income for life at a guaranteed level if the Protected Benefit Account Value is reduced to zero due to poor performance, withdrawals or contract fees. Withdrawals in excess of the Annual Withdrawal Amount may terminate this feature.
Annual Withdrawal Amount	Your Annual Withdrawal Amount (AWA) is equal to the GMIB Benefit Base as of the most recent contract date anniversary times the Annual Roll-Up Rate in effect on the first day of the contract year and is increased by the amount of the prorated roll up in the amount of transfers and contributions in that year. Withdrawals up to the Annual Withdrawal Amount reduce the Annual Roll-Up Amount on a dollar-for-dollar basis. Any remaining Annual Roll-Up Amount at the end of the contract year is credited to the GMIB Benefit Base during the GMIB Roll-Up Period. An excess withdrawal is the portion of any withdrawal in excess of the Annual Withdrawal Amount and any additional withdrawals in that contract year. The Benefit Base is reduced on a pro rata basis by excess withdrawals as of the date of any excess withdrawal.
Guaranteed Minimum Death Benefits in Protected Benefit Account (Additional Charge)	
Highest Anniversary Value Death Benefit	Issue ages: 0-70 (If GMIB is elected, minimum age to fund is age 50) Annual Fee: 0.35% of benefit base deducted from the Protected Benefit Account Value on each contract anniversary.
Description of Benefit	Increases the Highest Anniversary Value Benefit Base to equal the Protected Benefit Account Value on each contract anniversary up to age 85. Can be elected with or without the Guaranteed Minimum Income Benefit. When this benefit is elected with the GMIB, the Highest Anniversary Value Benefit Base is reduced by one dollar for each dollar you withdraw up to the Annual Withdrawal Amount, beginning in the first year of funding, and on a pro rata basis by excess withdrawals. In the first year of funding, or in any year if you elect this benefit without electing the GMIB, a proportionate adjustment will be made to your benefit base for any withdrawals you may take. The Highest Anniversary Value Death Benefit Base is not a cash value. When the Highest Anniversary Death Benefit is elected, transfers to the Protected Benefit Account are allowed up until age 80.
"Greater of" Death Benefit (Must be elected with GMIB)	Single owner issue ages: 20-65 (minimum age to fund is age 50) Joint owners issue ages: 50-65 (both owners) Annual Fee: 1.25% (max 2.50%) of benefit base deducted from the Protected Benefit Account Value on each contract anniversary. AXA Equitable has discretion to change the current fee after the first 2 contract years but it will never exceed the maximum fee. When the "Greater of" Death Benefit is elected, transfers into the Protected Benefit Account can be made starting at age 50, and are allowed up through age 70. The benefit and max funding rules are driven by the older owner's age. Not available in New York.
Description of Benefit	The death benefit is calculated from the higher of two benefit bases, either the Roll-Up Benefit Base or the Highest Anniversary Value Benefit Base. The benefit bases are not cash values. The Roll-Up Benefit Base matches the GMIB Benefit Base for the duration of the "Greater of" GMDB Roll-Up Period, which is to the earlier of the 20th contract anniversary from when the Protected Benefit Account was initially funded, and the contract date anniversary following the owner's (older owner or annuitant if applicable) 80th birthday, including the treatment of withdrawals. After the GMDB Roll-Up Period, Roll-Ups are no longer available and withdrawals reduce the GMDB Roll-Up Benefit Base on a dollar-for-dollar basis up to the Annual Withdrawal Amount and on a pro rata basis for excess withdrawals. The Highest Anniversary Value Benefit Base is reduced on a dollar-for-dollar basis by withdrawals up to the Annual Withdrawal Amount and on a pro rata basis by excess withdrawals. You must elect the GMIB to in order to elect this option.
RMD Wealth Guard GMDB (Not available with GMIB)	Issue Ages: 20-68 Annual Fee: 0.60% (max 1.20%)/1% (max 2%) of the benefit base deducted from the Protected Benefit Account Value on each contract anniversary for issue ages 20-64/65-68. AXA Equitable has discretion to change the current fee after the first 2 contract years but it will never exceed the maximum fee. Not available in New York.
Description of Benefit	Intended to protect against the reduction of the benefit base due to lifetime Required Minimum Distribution withdrawals after age 70½. Your RMD Wealth Guard death benefit base is initially determined by your allocation to the Protected Benefit Account. Any allocations or transfers to the Protected Benefit Account after the initial allocation will increase the RMD Wealth Guard death benefit base. The death benefit base may reset using the higher value of your death benefit base or Protected Benefit Account Value on your contract date anniversary. The RMD Wealth Guard death benefit base is no longer eligible for a reset at the earlier of the contract date anniversary following your first RMD withdrawal from the Protected Benefit Account and the contract date anniversary following your 85th birthday. After age 70½, any withdrawal taken from the Protected Benefit Account will count toward your RMD amount. Your RMD Wealth Guard GMDB will not be reduced by Protected Benefit Account RMD withdrawals. All withdrawals before age 70½ or in the first contract year will reduce the benefit base on a pro rata basis. Any withdrawals in excess of your Protected Benefit Account RMD amount will reduce your RMD Wealth Guard GMDB on a pro rata basis.

Guaranteed Minimum Death Benefit in Protected Benefit Account (No Additional Charge)

Return of Principal Death Benefit	<p>Issue ages: 0-70 (If GMIB is elected, minimum age to fund is age 50)</p> <p>Is available at no additional cost up to age 70, and ensures return of contributions and transfers to the Protected Benefit Account, adjusted for withdrawals on a pro rata basis, to your beneficiaries. The Return of Principal Death Benefit is available only in the Protected Benefit Account. When the Return of Principal Death Benefit is elected, transfers to the Protected Benefit Account are available to age 80, or if later, the first contract anniversary.</p>																				
Withdrawing Money																					
Ways to Withdraw Money	<p>There are a number of ways that account value may be withdrawn, including using an automatic payment plan making a partial withdrawal, making systematic withdrawals, using the substantially equal withdrawals option, and taking lifetime Required Minimum Distributions from IRAs. Please note that taking a withdrawal from the Protected Benefit Account variable investment options may impact your existing benefits. Please see the prospectus for more information.</p>																				
Free Withdrawal Amount in the Investment Account	<p>Each contract year, you can withdraw up to 10% of your Investment Account Value without paying a withdrawal charge. Please see the prospectus for more information on how the amount is determined.</p>																				
Free Withdrawal Amount in the Protected Benefit Account	<p>If a standalone GMDB is elected, you can withdraw up to 10% of the Protected Benefit Account Value at the beginning of the contract year without paying a withdrawal charge. If the GMIB is elected, you can withdraw up to the greater of 10% of the Protected Benefit Account Value and the Annual Withdrawal Amount from the Protected Benefit Account Value without paying a withdrawal charge. Please see the prospectus for more information on how the amount is determined.</p>																				
Contingent Withdrawal Charges (CWC)	<p>A CWC may apply in certain circumstances, including if you make one or more withdrawals during a contract year that, in total, exceed the Free Withdrawal Amount. CWC waivers apply under certain conditions. Please see the prospectus for more information. This is the CWC schedule for each contribution:</p> <table border="1" data-bbox="371 758 1441 821"> <thead> <tr> <th>Contract Year</th> <th>1-2</th> <th>3</th> <th>4</th> <th>5</th> <th>6</th> <th>7</th> <th>8</th> <th>9</th> <th>Thereafter</th> </tr> </thead> <tbody> <tr> <td>Declining CWC</td> <td>8%</td> <td>7%</td> <td>6%</td> <td>5%</td> <td>4%</td> <td>3%</td> <td>2%</td> <td>1%</td> <td>None</td> </tr> </tbody> </table>	Contract Year	1-2	3	4	5	6	7	8	9	Thereafter	Declining CWC	8%	7%	6%	5%	4%	3%	2%	1%	None
Contract Year	1-2	3	4	5	6	7	8	9	Thereafter												
Declining CWC	8%	7%	6%	5%	4%	3%	2%	1%	None												
Tax Treatment	<p>Earnings are taxable as ordinary income when distributed, and may be subject to a 10% additional federal tax if withdrawn before age 59½. Withdrawals come first from gains in the contract for tax purposes, and will reduce the contract value, as well as any death benefit or living benefit. Tax treatment may differ for certain markets. Please see the prospectus for more details.</p>																				

Important Information

Not all features and benefits are available through all selling broker/dealers. Please check your broker/dealer for availability.

If you are purchasing an annuity contract as an Individual Retirement Annuity (IRA) or to fund an employer retirement plan (QP or Qualified Plan), you should be aware that such annuities do not provide tax-deferral benefits beyond those already provided by the Internal Revenue Code. Before purchasing one of these annuities, you should consider whether its features and benefits beyond tax deferral meet your needs and goals. You may also want to consider the relative features, benefits and costs of these annuities with any other investment that you may use in connection with your retirement plan or arrangement.

Income taxes apply to annuity distributions. Excess withdrawals impact the contract value, and may impact the death benefit and the lifetime income guarantee more than the actual withdrawal amount. Investment restrictions apply.

AXA Equitable may discontinue contributions and transfers among investment options, or make other changes in contribution and transfer requirements and limitations. If we discontinue contributions and transfers into the Protected Benefit Account, you will no longer be able to create a benefit base or actively increase the benefit(s). Amounts invested in the Protected Benefit Account variable investment options can be transferred only among the Protected Benefit Account variable investment options. Transfers out of the Protected Benefit Account variable investment options into the Investment Account variable investment options or Guaranteed Interest Option are not permitted.

There is no guaranteed benefit or benefit base applicable to amounts allocated to the Investment Account. Once elected, guaranteed benefits and their respective benefit bases can be established only by funds contributed or transferred into the Protected Benefit Account.

Assets allocated to the Investment Account are not protected by any of the optional riders elected at issue. Additionally, the charges for the optional riders do not apply to assets allocated to this account. If the contract is jointly owned, the death benefit is payable upon the death of the older owner. If the younger owner is the first to die and the owners are married to each other, the contract continues; otherwise, the cash value must be paid out within 5 years.

Not all types of contracts, features and benefits are available in all jurisdictions and all markets. We offer other variable annuity contracts with different fees, charges and features. Not every contract is available through the same selling broker/dealer. You can contact us at (212) 554-1234 to find out the availability of other contracts.

This fact card does not cover all material provisions of the Retirement Cornerstone® 19 contract. This fact card must be preceded or accompanied by a current Retirement Cornerstone® 19 prospectus, which contains more detailed information about the Retirement Cornerstone® contract, including risks, charges, expenses, investment objectives, limitations and restrictions. You should carefully read the prospectus on CD included in this kit before purchasing a contract.

This fact card was prepared to support the promotion and marketing of AXA Equitable variable annuities. AXA Equitable, its distributors and their respective representatives do not provide tax, accounting or legal advice. Any tax statements contained herein were not intended or written to be used, and cannot be used, for the purpose of avoiding U.S. federal, state or local tax penalties. Please consult your own independent advisors as to any tax, accounting or legal statements made herein.

All contract and rider guarantees, including optional benefits and any fixed subaccount crediting rates or annuity payout rates, are backed by the claims-paying ability of AXA Equitable Life Insurance Company. They are not backed by the broker/dealer from which this annuity is purchased, by the insurance agency from which this annuity is purchased or any affiliates of those entities, and none makes any representations or guarantees regarding the claims-paying ability of AXA Equitable Life Insurance Company.

Retirement Cornerstone® 19 is issued by AXA Equitable Life Insurance Company (AXA Equitable).

Contract form #: ICC12BASE4 and ICC12BASE3 and any state variations.
