MEMBERS RETIREMENT PROGRAM

PLAN FEE DISCLOSURE

For Services Provided by Equitable

Revised May 1, 2022

I. Overview

Selecting a service provider requires that you evaluate and differentiate services offered by competing companies. Cost is one of the criteria, but not the only criterion, for making this evaluation. Other factors of equal or greater importance to consider include the quality and type of services provided, the anticipated performance of competing providers and their investment products and other factors specific to your plan's needs. The service provider offering the lowest cost services is not necessarily the best choice for your plan.

The Employee Retirement Income Security Act of 1974, as amended (ERISA) requires employee benefit plan fiduciaries to act solely in the interests of, and for the exclusive benefit of, plan participants and beneficiaries. As part of that obligation, plan fiduciaries should consider cost, among other things, when choosing investment options for the plan and selecting plan service providers.

Under rules adopted by the U.S. Department of Labor (DOL), plan service providers must deliver written information about their services and compensation received from plans in connection with providing such services. This document is designed to provide a summary of the fee and services arrangements provided by the Members Retirement Program (Program) including information about the compensation received by Equitable and its affiliates, and certain other third parties. We hope that it will assist you in making informed decisions with respect to your Plan.

The plan fees included in this disclosure summary document represent the actual plan fees for the Program for the period 05/01/2022 through 04/30/2023, except where otherwise

noted. We expect that your Plan will pay similar fees in future years, except where otherwise explained. Please note that the Group Annuity Contract allows certain changes in fees from time to time, and we will notify you of such changes promptly. Additional fee and other information about your Plan may be obtained from the Program prospectus and investment option prospectuses. Additional information relating to plan administration services and expenses is also contained in the program prospectus, Statement of Additional Information and MRP Group Annuity Contract. You may access the prospectus and Statement of Additional Information electronically at mrp.equitable.com. For additional information please call 1-800-526-2701 or email us at mrp@equitable.com.

For participant-directed plans, we are obligated to provide you with information that you need to comply with DOL regulations that require the delivery of information to your Plan's participants about your Plan's designated investment alternatives. This information is available on the employer web site at mrp.equitable.com under Participant Fee Disclosure.

II. Expense Calculation

In general, fees for retirement plans are calculated using one or any combination of the four methods described below. Plan administration-related expenses can also be charged as one-time or ongoing fees. One-time fees are typically related to start-ups, conversions (moving from one provider to another) and terminations of service. Ongoing fees are recurring expenses relating to the continued operation of a plan.

FEE TYPES

Asset-based: expenses are based on the amount of assets in the plan and generally are expressed as percentages or basis points.

Per-person: expenses are based upon the number of eligible employees or actual participants in the plan.

Transaction-based: expenses are based on the execution of a particular plan service or transaction.

Flat rate: fixed charge that does not vary, regardless of plan size.

The Members Retirement Program has a combination of these types of fees, including asset-based fees for plan

administrative services, certain one-time fees and per participant fees relating to specific services or transactions. The fees for the investment options in the Program are asset based and vary depending on the investment option selected by the participant.

Estimated Cost of Recordkeeping:

Because certain indirect compensation received by Equitable through Investment Options may be taken into account in determining the fees charged to the Plan for recordkeeping services, we are required to provide an estimate of the cost to your Plan of recordkeeping services. We estimate the annual cost of the recordkeeping services described in Exhibit B (without reduction or any adjustment for the receipt of indirect compensation) to be \$215.96 per participant. This cost estimate is determined by dividing the annual cost Equitable incurs to provide services and maintain recordkeeping services to its clients by the average number of plan participants Equitable services on its recordkeeping system for the year plus an associated profit assumption for the business. The estimate is based on 2021 data and has been calculated across all plans for which Equitable provides recordkeeping services and does not account for the specific service arrangements being provided on a plan by plan basis which may increase or decrease the actual cost for any specific plan.

III. Plan Administration Expenses

These expenses include the Program Expense Charge, Record Maintenance and Report Fee., Plan Startup and Ongoing Enrollment Fee and Other Expenses. The following fees and expenses are applied to cover the administrative and other costs of the Program, including: the cost of plan set up and conversion; recordkeeping and administrative costs for services such as participant enrollment, processing loan and withdrawal requests, providing plan documents and participant statements, tax reporting and answering participant inquiries; the maintenance of the investment options; the promotion of the Program; and overhead expenses such as salaries, rent, postage, telephone, travel, legal, actuarial and accounting costs, office equipment and stationery. For a detailed description of services included in the Plan Administration Fees see Exhibit B.

The maximum PEC assessed for a plan is 0.85%. The PEC is expressed as an annual rate which is prorated so that it is deducted from participants' accounts monthly. As illustrated in the chart below, the Program Expense Charge that you and

the participants in your plan actually pay is determined according to a tiered schedule based on the average account value of the accounts in your plan and the total plan assets invested in the Members Retirement Program by your plan.

	Average Account Value	
	Less than \$75,000	Greater than \$75,000
Total Plan Assets	Schedule A	Schedule B
Up to \$250,000	0.85%	0.85%
Next \$250,000	0.65%	0.55%
Over \$500,000	0.50%	0.40%

Total plan assets are all assets invested in the Members Retirement Program under a plan. The first \$250,000 in assets under the plan will be subject to a Program expense charge of 0.85% per year. If the Total plan assets exceed \$250,000, any amounts greater than that will be subject to a lower charge. The next \$250,000 (up to Total plan assets of \$500,000) will be subject to a Program expense charge of either 0.65% or 0.55%, under Schedule A or Schedule B above, respectively. Any assets in the plan in excess of \$500,000 will be subject to a Program expense charge of either 0.50% or 0.40%, under Schedule A or Schedule B above, respectively. The sum of the amounts calculated under this formula equals the total Program expense charge for the plan. The percentage of Total plan assets that this sum represents is the annual Program expense charge that each participant in the plan pays on his or her account value.

We will deduct the Program expense charge from your value in the Funds on a pro rata basis. If those amounts are insufficient, we will deduct them from your value in the Money Market Guarantee Account. If those amounts are still insufficient, we will deduct all or a portion of the charge from your values in Guaranteed Interest Option. As of July 10, 2015, the Program Expense Charge is not deducted from the GRAs. The amounts we deduct from the Money Market Guarantee Account and Guaranteed Interest Option will never cause the rates we pay on those accounts to fall below 1.00%.

Recordkeeping & Report Fee	Plan Startup and Ongoing Enrollment	Other Expenses
\$3.75 per quarter per participant	\$25 per participant	0.01%

Notes on Charges/Fees

The *Record Maintenance and Report Fee* is deducted on a quarterly basis from each participant's account. The fee is set at \$3.75 per quarter. Based on past experience, we do not expect this fee to vary materially in future years.

The *Plan Startup and Ongoing Enrollment* expense is paid by the employer. There is no charge for conversion of a plan from a prior carrier.

The *Program Related Other Expense* charge is expressed as an annual rate that is prorated so that it is deducted directly from the variable investment options in the participant accounts on a daily basis. This fee includes amounts charged for SEC filing fees and certain other expenses such as preparing and printing of SEC filings, prospectuses and reports, mailing costs, custodians' fees, financial accounting costs, outside auditing and legal expenses, and other costs related to the Funds. These expenses may vary by Fund and will fluctuate from year to year based on actual expenses. We do not expect these expenses to vary materially from their current level. The highest maximum percentage deducted each year is disclosed in the prospectus.

Plan Start-Up and Enrollment Fee is paid by the employer. There is no charge for conversion of a plan from a prior carrier.

including the selection, ongoing oversight and replacement of investment sub-advisors for each Fund. For some Funds, Equitable's affiliate, AllianceBernstein Holding, L.P. (Alliance Bernstein) provides sub-advisory services to certain of the available Funds offered by the Members Retirement Program Group Annuity Contract. Other Funds are sub-advised by third-parties not affiliated with Equitable.

Equitable IMG receives an advisory fee for these services, which are reflected in the total operating expense stated for each Fund on Exhibit A. If AllianceBernstein is engaged as a sub-advisor to an available Fund, it receives a portion of the advisory fee received by the Equitable IMG.

The EQAT and the VIP Trusts have adopted distribution and shareholder service plans that provide for the payment of Rule 12b-1 fees on certain classes of Fund shares. However, the Fund share classes available under the MRP Program do not assess Rule 12b-1 fees on investments within the Program. This means that no distribution and shareholder service fees will be paid from the Fund shares offered within the Program.

JP Morgan Chase Bank, N.A. ("JP Morgan Chase") provides custodial and accounting services for assets of the Funds. JP Morgan Chase is paid by the Funds for performing these services. JP Morgan Chase is neither an affiliate nor a subcontractor to Equitable.

See each Fund's prospectus for additional information about the services provided and fees received by the Equitable IMG, Alliance Bernstein and the various sub-advisors to the EQAT and VIP Trusts.

Guaranteed Accounts

Equitable Financial Life Insurance Company provides guarantees on all contributions allocated to the Money Market Guarantee Account and GIO.

Money Market Guarantee Account:

The Money Market Guarantee Account (MMGA) was closed to new contributions on January 1, 2009.

Guaranteed Interest Option (GIO):

The GIO is part of Equitable's general account, pays interest at guaranteed rates, and provides an Investment Option in which the value of the principal will not fluctuate. We credit interest daily to amounts in the GIO. Interest rates are set monthly. All interest rates are effective annual rates net of program and

IV. Investment Options Fees

The Program's investment options include Variable Investment Options (Funds) and Guaranteed Accounts.

Variable Investment Options (Funds):

Each of the Variable Investment Options (Funds) in the Program is charged asset-based fees for investment management and other services required to maintain the Fund. These fees are expressed as an annual percentage of Fund assets and are deducted from Fund assets daily. Exhibit A describes the fees associated with each of the Funds in the Program including each Fund's net annual fund expense. Please note the following:

Equitable Investment Management Group, LLC ("EQUITABLE IMG") is an affiliate of Equitable and acts as the investment advisor to the Funds offered through the EQ Advisors Trust (EQAT), the VIP Trust and the 1290 Funds®.

Equitable Investment Management Group, LLC ("Equitable IMG") is an affiliate of Equitable and acts as the investment advisor to the Funds offered through the EQ Advisors Trust (EQAT), the VIP Trust and the 1290 Funds®. As investment advisor, the Equitable IMG provides services

other expenses. The lifetime minimum interest rate is 1.00%. The current interest rate will never be less than the lifetime minimum rate.

Transfers from the GIO to other investment options are permitted. Withdrawals are permitted from the GIO, subject to a market value adjustment if plan initiated.

The Guaranteed Accounts are backed by Equitable's General Account. Guaranteed interest crediting rates are determined net of Equitable's required cost of capital and expenses to manage the General Account. Expenses include investment, policy administration, and acquisition expenses, taxes and the cost of maintaining regulatory capital.

The difference between what Equitable earns on the investments held in the General Account minus costs and expenses and the plan's guaranteed interest crediting rate is income to Equitable which is used, in part, to offset the cost of services provided to your Plan.

The Guaranteed Accounts are backed by Equitable's General Account. Guaranteed interest crediting rates are determined net of Equitable's required cost of capital and expenses to manage the General Account. Expenses include investment, policy administration, and acquisition expenses, taxes and the cost of maintaining regulatory capital.

V. Other Compensation

Float:

Equitable retains any earnings on amounts held in its general account temporarily pending investment under insurance products as well as funds that have been disbursed from insurance products pending presentment for payment by the client's financial institution (Float). Earnings on such amounts are generally at institutional money market rates. For more information about Float income that Equitable receives, please see the Department of Labor Notice within your Program Prospectus.

Transaction Processing Breakage Policy:

We generally process all investment instructions (including for the investment of new contributions, transfers between funds and other directions) that are timely received in good order on the business day received at that day's closing price. If we are responsible for a transaction processing delay or error, it is our policy to correct the issue as soon as

possible and return the plan and participant account to the economic position that they would be in absent the delay or error. If correction processing generates a shortfall to the plan and participant account, we make the account whole by paying the shortfall. If correction processing generates an overage (*i.e.*, an amount in excess of what would be in the account if the error did not occur), we retain the overage as a component of our compensation for transaction processing services, including our agreement to make the plan and participant account whole for our delays or errors.

In general, the amounts involved in these shortfalls and overages are small. Since the inception of the Program, overages that we retained across our business have not materially exceeded shortfalls. We will provide you additional information about our correction process, and the shortfalls and overages pertaining to your plan, on request. Please note that we process many investment instructions on an "omnibus" or aggregated basis and, because of this, we may not be able to determine whether a shortfall or overage is attributable to a specific plan or client.

Non-monetary compensation:

Equitable maintains a written policy governing receipt by its employees and representatives of cash and non-cash compensation as well as overall limits on the aggregate amount that may be received. Such compensation may include such items as gifts of nominal value, an occasional dinner or ticket to a sporting event, or reimbursement in connection with educational meetings or marketing or advertising initiatives. Such sponsors may also pay for education or training events that may be attended by employees and representatives.

VI. Transaction-Based Fees and Termination Charges

Transaction-Based Fees:

There are no transaction-based fees charged to plan sponsors or participants in the Program.

Annuity Payout Option:

If a participant chooses an annuity as his/her payout option from the plan he/she will be subject to a one-time charge of \$350 which will be deducted from his/her account balance at the time the annuity is established.

Termination Charges:

The Program does not include a termination charge if you decide to transfer or rollover your plan's assets.

VII. Distribution and Third-Party Payments

Distribution of the Contracts:

Equitable performs all marketing and service functions for the Program. No sales commissions are paid with respect to sales of the MRP Group Annuity Contract or investment in the Funds pursuant to the Contract. However, incentive compensation is paid to Equitable employees performing these functions, based upon sales and the amount of first year contributions. This compensation is not paid out of plan or participant funds, and has no effect on your Program fees, charges and expenses. For more information, see the Statement of Additional Information.

Fees Paid to Association:

Equitable may pay an association a fee for enabling the Program to be made available to their memberships based on the number of employers whom we solicit, the number who participate in the Program, and/or the value of Program assets. Equitable makes these payments without any additional deduction or charge under the Program.

Fees Paid to Benefit Trust Company:

Plans that participate in the Members Retirement Program contract and IRS-approved plan and trust document do so by using the directed plan trustee services of Benefits Trust Company ("BTC"). As acting as a directed trustee, BTC is a fiduciary to your Plan. Equitable compensates BTC for these services from its own assets. The sole investment of your trust is in the Amended and Restated Pooled Trust for Association Members Retirement Plan ("Pooled Trust"), a Rev. Rul. 81-100 group trust, which holds the group annuity contract issued by Equitable. There are no expenses charged to the Pooled Trust. BTC does not expect to receive more than \$35 per year for providing these services to your Plan. Moreover, BTC, as trustee of the Pooled Trust does not expect to receive more than \$1,000 over the duration of the

contract in connection with holding the group annuity contract that funds your Plan.

VIII. Fiduciary Status

Equitable, through its affiliate Equitable IMG is an investment fiduciary under the Investment Company Act of 1940 for the investment options in the EQ Advisors Trust (EQAT) or EQ Premier VIP Trust (VIP) offered on Equitable's retirement plan platform. Neither Equitable nor any of its affiliates or subcontractors acts or expects to act as a fiduciary to the plan as defined under ERISA.

IX. Plan Expense Example

A simple example of the total plan expenses that a one-participant plan might pay on an annual basis if the participant invested his or her entire \$30,000 account in one Fund with a 1.74% total net annual operating expense, comprised of Program Expense Charge (0.85%), Program Related Other Expenses (0.01%), and a net annual fund expense of (0.88%).

Multiplying the 1.74% annual fee percentage by the participant's account totaling \$30,000, and adding the Recordkeeping and Report Fees, the participant in this example would be charged (netted from their investment experience) \$537 on an annual basis.

Total Asset based Fees in the example:	\$522
Total Recordkeeping and Report Fees:	<u>\$15</u> (\$3.75 per/qtr)
Total Annual Fees	\$537

The above is only an illustration. The amounts that individual participants pay could vary based on the Funds selected and their account balances. The example above assumes a constant account balance for the entire year. From the participant's account balance the PEC is deducted monthly and the recordkeeping and report fee is deducted quarterly. The net annual fund expense is calculated daily and automatically reflected in the daily unit value of the Fund.

Members Retirement Program Variable Annuity

Portfolio Expenses

(as reported in each portfolio's prospectus dated May 1, 2022) as supplemented*

Disclosure: Portfolio shares of EQ Advisors Trust and EQ Premier VIP Trust ("the Trusts") are currently sold only to insurance company separate accounts in connection with variable life insurance contracts and variable annuity certificates and contracts ("the contracts") issued by Equitable Financial Life Insurance Company ("Equitable Financial"), Equitable Financial Life and Annuity Company (Equitable Financial Life Insurance and Annuity Company in California), other affiliated or unaffiliated insurance companies and to The Equitable Financial 401(k) Plan ("Equitable Financial Plan"). Shares also may be sold to tax-qualified retirement plans and to other series of the Trusts. This means that investors may not buy shares of the Portfolios directly, but only through a contract offered by a participating insurance company.

Note: The CUSIPs are provided for research purposes only.

* These expenses are based on each portfolio's prospectus dated May 1, 2022, or for certain portfolios, the most recent prospectus supplement to the May 1, 2022 prospectus.
Fidelity Institutional AM is a registered service mark of FMR LLC. Used with permission.

A variable annuity is a long-term, tax-deferred accumulation product. In its most basic terms, an annuity is a contract between you and an insurance company to accumulate funds and then to provide lifetime payments. A variable annuity allows you to adopt a personal investment strategy to allocate your investment among a range of investment portfolio options. An annuity contract has two phases: An accumulation phase, which allows tax-deferred growth potential, and an annuitization phase, when you withdraw your money plus any earnings your annuity has accumulated.

There are fees and charges associated with variable annuities, which include, but are not limited to, mortality and expense risk charges, sales and surrender charges, administrative fees, and additional charges for optional benefits. Amounts in the annuity's variable investment options are subject to fluctuation in value and market risk, including loss of principal. Certain types of contracts, features and benefits may not be available in all jurisdictions. Withdrawals will be subject to ordinary income tax and, if made prior to age 59 1/2, may be subject to an additional 10% federal income tax penalty.

**Please consider the charges, risks, expenses, and investment objectives carefully before purchasing a variable annuity or making an investment portfolio decision. For a prospectus containing this and other information, please contact a financial professional.
Read it carefully before you invest or send money.**

Variable annuities: Are Not a Deposit of Any Bank * Are Not FDIC Insured * Are Not Insured by Any Federal Government Agency * Are Not Guaranteed by Any Bank or Savings Association * May Go Down

Equitable is the brand name of the retirement and protection subsidiaries of Equitable Holdings, Inc., including Equitable Financial Life Insurance Company (Equitable Financial) (NY, NY), Equitable Financial Life Insurance Company of America (Equitable America), an AZ stock company with main administrative headquarters in Jersey City, NJ, and Equitable Distributors, LLC. Equitable Advisors is the brand name of Equitable Advisors, LLC (member FINRA, SIPC) (Equitable Financial Advisors in MI and TN). The obligations of Equitable Financial Life Insurance Company are backed solely by its claims-paying ability.

Variable annuity products are issued by Equitable Financial Life Insurance Company (Equitable Financial) and co-distributed by affiliates Equitable Distributors, LLC and Equitable Advisors, LLC (member FINRA, SIPC) (Equitable Financial Advisors in MI & TN). Equitable Financial, Equitable Advisors and Equitable Distributors do not provide tax or legal advice.

Exhibit A

Pooled trust expenses expressed as an annual percentage

	Investment Management and Accounting Fee ⁽¹⁾	Direct Operating and Other Expenses ⁽²⁾	Total
AllianceBernstein Growth Equity	0.30%	0.08%	0.38%
AllianceBernstein Mid Cap Growth	0.65%	0.02%	0.67%
AllianceBernstein Balanced	0.50%	0.36%	0.86%

(1) These fees will fluctuate from year to year and from fund to fund based on the assets in each fund. The percentage set forth in the table represents the highest fees incurred by a fund during the fiscal year ended December 31, 2020. These expenses may be higher or lower based on the expenses incurred by a fund during the fiscal year ended December 31, 2021. We receive a portion of this fee for accounting and administrative services.

(2) These expenses vary by investment Fund, and will fluctuate from year to year based on actual expenses. The percentage set forth in the table represents the highest other expenses incurred by a Fund during the fiscal year ended December 31, 2020. These expenses may be higher based on the expenses incurred by the Funds during the fiscal year ended December 31, 2021.

Plan Fee Disclosure - Exhibit B

Services included in Plan Administration Fees

Exhibit C Plan Fee Disclosure Definition of Terms

Administration/Recordkeeping Fee: Fee for providing recordkeeping and other plan participant administrative type services. For start-up or takeover plans, these fees typically include charges for contacting and processing information from the prior service provider and “matching up” or mapping participant information. Use of this term is not meant to identify any ERISA Section 3(16)(A) obligations.

Balance Inquiry: Fee that may be charged each time a participant inquires about his or her balance.

Bundled Services: Arrangements whereby plan service providers offer 401(k) plan establishment, investment services and administration for an all-inclusive fee. Bundled services by their nature are priced as a package and cannot be priced on a per service basis.

Contract Termination Charge: A charge to the plan for “surrendering” or “terminating” its insurance/annuity contract prior to the end of a stated time period. The charge typically decreases over time.

Conversion: The process of changing from one service provider to another.

Distribution Expense: The costs typically associated with processing paperwork and issuing a check for a distribution of plan assets to a participant. May include the generation of IRS Form 1099R. This fee may apply to hardship and other in-service withdrawals as well as to separation-from-service or retirement distributions.

Eligible Employee: Any employee who is eligible to participate in and receive benefits from a plan.

Expense Ratio: The cost of investing and administering assets, including management fees, in a mutual fund or other collective fund expressed as a percentage of total assets.

Individually Managed Account: An investment account managed for a single plan.

Installation Fee: One-time fee for initiating a new plan or initiating new services.

Investment Transfer Expense: Fee associated with a participant changing his or her investment allocation, or making transfers among funding accounts under the plan.

Loan Maintenance and Repayment Tracking Fee: Fee charged to monitor outstanding loans and repayment schedule.

Loan Origination Fee: Fee charged when a plan loan is originally taken.

Loan Processing Fee: Fee charged to process a plan loan application.

Management Fee: This Fee is for the investment management of the portfolios.

Net Annual Expenses- (After expense limitations) – The Total Annual Expense (Before Expense Limitation) minus the Fee Waivers and/or Expense Reimbursements.

Nondiscrimination Testing Expense: Tax qualified retirement plans must be administered in compliance with several regulations requiring numerical measurements. The fee charged for the process of determining whether the plan is in compliance is collectively called nondiscrimination testing expense.

Participant: Person who has an account in the plan.

Participant Education Materials/Distribution Expenses: All costs (including travel expenses) associated with providing print, video, software and/or live instruction to educate employees about how the plan works, the plan investment funds, and asset allocation strategies. There may be a one-time cost associated with implementing a new plan, as well as ongoing costs for an existing program.

Exhibit C Plan Fee Disclosure Definition of Terms

Plan Document/Determination Letter Fee (Filing Fee): Fee charged for a written plan document. Fee can also include the costs associated with preparing and filing IRS required documentation, including the request for a determination letter (document issued by the IRS stating whether the plan meets the qualifications for tax-advantaged treatment).

Plan Loan: The law allows participants to borrow from their accounts up to prescribed limits. This is an optional plan feature.

Product Termination Fee: Investment-product charges associated with terminating one or all of a service provider's investment products.

QDRO (Qualified Domestic Relations Order): A judgment, decree or order that creates or recognizes an alternate payee's (such as former spouse, child, etc.) right to receive all or a portion of a participant's retirement plan benefits.

Separate Account: An asset account established by a life insurance company, separate from other funds of the life insurance company, offering investment funding options for pension plans.

Service Provider Termination Charge: Plan administrative costs associated with terminating a relationship with a service provider, with the permanent termination of a plan, or with the termination of specific plan services. These may be termed "surrender" or "transfer" charges.

Signature Ready Form 5500: Fee to prepare Form 5500, a form which all qualified retirement plans (excluding SEPs and SIMPLE IRAs) must file (electronically, except for one-participant plans) annually with the DOL.

Start-up/Enrollment Expense: Costs associated with providing materials to educate employees about the plan, and enrolling employees in the plan. This may be part of, or included in, the education programs. There may be a one-time cost associated with implementing a new plan, as well as ongoing enrollment costs.

Trustee Services: Fees charged by the individual, bank or trust company with fiduciary responsibility for holding plan assets.

VRU: Voice Response Unit.

Wrap Fee: An inclusive fee generally based on the percentage of assets in an investment program, which typically provides asset allocation, execution of transactions and other administrative services.

12b-1 Fee: a charge to shareholders to cover a mutual fund's shareholder servicing, distribution and marketing costs.
