Get the coverage you need in 10 minutes or less with our seamless, all-digital experience

Term-in-10SM is simple, flexible life insurance protection featuring an all-digital, noninvasive experience. It's more than just accelerated underwriting. It's a no-exam, instant-issue smart choice for people who need life insurance protection in just 10 minutes or less.

Term-in-10SM fits into your fast-paced world

Nearly half of all Americans do not have any life insurance protection,¹ and 42% would face financial hardship within 6 months if the primary wage earner were to die unexpectedly.² If you're considering term life insurance to protect your family, but have heard the process takes weeks, you may want to consider Term-in-10SM.

What is term insurance?

Term life insurance is the simplest way to provide affordable life insurance protection for temporary needs. It pays a level death benefit and does not build up cash value. This type of life insurance typically offers the most protection for your premium dollar.

It takes just 10 minutes or less — Even accelerated underwriting can take several days.

It's all digital — That means no exams, waiting or hassles.

Stay in control — While your financial professional is there to guide you through the process and answer any questions, you're in control of the application.

Pay premiums using credit, debit or Apple Pay[®] — Just another way Term-in-10SM is easy and convenient.

You'll have the assistance of your financial professional throughout the entire process. Here's how it works:

Term-in-10SM: the details

Since term insurance can be purchased in large amounts for an affordable premium, it is well-suited for shorter-term protection goals, such as extra protection until a mortgage is paid off or children are through college.

Convertibility can help keep up with changing needs

If your needs change and you need coverage for an extended period of time, you have the flexibility to convert your Term-in-10SM policy to a permanent life insurance policy.

Having a term policy means you've locked in your insurability, and you won't need to give any additional evidence of insurability when you convert to permanent coverage. You can select from any of Equitable's permanent life insurance policies available at the time of conversion.³

The difference between Term-in-10SM and traditional underwriting and how it can affect the cost of your policy

To reach a final, automated underwriting decision and pricing for your policy, Term-in-10SM uses your answers to application questions and, with your agreement, available data sources, including a prescription database check and motor vehicle report.⁴ This process can take fewer than 10 minutes. The traditional underwriting process used by other term products, on the other hand, can take more than a month. It includes an application, data sources, as well as blood and urine samples and full medical record ordering, and allows time for an underwriter to review all this information to determine your final decision and policy cost. Given the more extensive review of your personal history and medical condition, it is likely you could pay less for a fully underwritten product. **Please consult with your financial professional for more information.**

³ After 5 years, we reserve the right to limit the permanent products offered.

⁴ The underwriting for Term-in-10SM is handled by our third-party administrator, Bestow.

This product may not be for everyone who needs additional protection. Additionally, other fully underwritten comparable products may be available at a reduced premium. Please talk to your financial professional for more information.

Term-in-10SM may not be available in all jurisdictions. Some states may vary the terms and conditions.
