

EQUITABLE

Where can I find participating dentists? www.equitable.com/finddentist

Which dentists are considered participating for our dental members?

Equitable does not contract directly with dentists. We lease networks from several network partners. Consequently, dentists may not be familiar with the Equitable name and not know they are in-network.

****Please reference the following network names when confirming in-network participation****

Dental Benefit Providers, Inc	Maverest Dental Network
Dentemax	HealthSmart
PPO USA Connection Dental Network (GEHA)	Total Dental Administrators

The in-network dentists we offer our members are participating with at least one of these partners.

What if my dentist is not listed in the Equitable directory?

Your Equitable dental benefits can be used with out-of-network providers. However, if you visit a dental provider within our network, you:

- Receive an average of one-third off the price of dental services, so you can pay less and stretch your annual maximums.
- Only pay their deductible and coinsurance based on our in-network discounted fee for each procedure – no balance billing up to the provider's charge.
- Receive quality care by dentists who are continually monitored by state and specialty boards.
- Save time and hassle because the dentist takes care of all the claim paperwork.

Where do dentists submit claims?

PO Box 2107
Grapevine, TX 76099-2107
Electronic Claims: Payor ID 75261

How does a dentist find member benefits and eligibility?

Customer service can be contacted at 866-274-9887, prompt 1 for this information. For network specific information, please use prompt 9.
