Equitable believes that education is a key step toward addressing your financial goals, and we've designed this material to serve simply as an informational and educational resource. Accordingly, this material does not offer or constitute investment advice and makes no direct or indirect recommendation of any particular product or of the appropriateness of any particular investment-related option. Your needs, goals and circumstances are unique, and they require the individualized attention of your financial professional.

Portfolios feature Equitable's proprietary managed-volatility strategy (or invest in underlying portfolios that feature this strategy) that currently utilizes futures and options to manage equity exposure when market volatility increases above specific thresholds set for the portfolio. It is not possible to manage volatility fully or perfectly, which could cause these portfolios to underperform or experience losses.

Investment options and available share classes are subject to change. Contact your financial professional for the most up-to-date list of investment options and available share classes.

Amounts in variable investment options are subject to fluctuation in value and market risk, including loss of principal. You should consider the charges, risks, expenses and investment objectives carefully before investing. For a prospectus containing this and other information on the investment options listed here, you should contact your financial professional. Please read the prospectus carefully before you invest or send money.

The Retirement Gateway® investment options contain various types of investments, including variable investment trusts and mutual funds. Certain investment funds may contain different investments than similarly named investment funds of a different type offered by the money manager. Investment results of the different types of similarly named investments may be higher or lower. Please see the investment fund's prospectus for more information on the type and structure of the investment.
