Equitable believes that education is a key step toward addressing your financial goals, and we've designed this material to serve simply as an informational and educational resource. Accordingly, this material does not offer or constitute investment advice, and makes no direct or indirect recommendation of any particular product or of the appropriateness of any particular investment-related option. Portfolios feature Equitable Financial proprietary managed-volatility strategy (or invest in underlying portfolios that feature this strategy) that currently utilizes futures and options to manage equity exposure when market volatility increases above specific thresholds set for the portfolio. It is not possible to manage volatility fully or perfectly, which could cause these portfolios to underperform or experience losses.

Investment options and available share classes are subject to change. Contact your financial professional for the most up-to-date list of investment options and available share classes.

Amounts in variable investment options are subject to fluctuation in value and market risk, including loss of principal. Clients should consider the charges, risks, expenses and investment objectives carefully before investing. For a prospectus containing this and other information on the investment options listed here, clients should contact their financial professional. Clients should read the prospectus carefully before they invest or send money.

The Retirement Gateway® investment options contain various types of investments, including variable investment trusts and mutual funds. Certain investment funds may contain different investments than similarly named investment funds of a different type offered by the money manager. Investment results of the different types of similarly named investments may be higher or lower.
