

EQUITABLE

Information Technology Development Program

The Information Technology (IT) teams are at the forefront of our company's efforts to ensure our information systems and technologies can keep pace with the rapidly changing landscape and future challenges inherent to our industry. We are committed to constantly evolving, adapting to the times and continuously providing new solutions to empower employees and clients alike.

The IT associates and summer IT interns receive extensive training and gain experience in our core technical practice disciplines, IT best practices and processes, while they also engage on a variety of project, programming and analysis activities.

You will have the opportunity to:

- Gain practical experience and technical job training in one of our key IT areas: data analytics, systems analysis, cyber security, Cloud, system engineering and agile software delivery.
- Contribute to our digital transformation.
- Support our business partners in delivering innovative and high-quality solutions.
- Promote and facilitate the sharing of IT resources, best practices, and innovative ideas and approaches.

Are you working toward an IT, engineering, mathematics, computer science, cyber security or equivalent degree?

Explore the opportunities available with our Charlotte- and Syracuse-based IT teams.

"As a summer intern, I got a chance to work as a data analyst and explore the opportunities a career in Information Technology had to offer. During my internship, I was treated as another member of the team, which made me feel welcomed and important. Once I completed my degree, I returned as a full-time technology associate on the team I left as an intern. It is almost as if I had simply gone on vacation, since I was able to jump right back into the position and begin working on the projects my team was working on."

Katelyn Hile | Technology Associate | Syracuse, NY

Apply today and let's pursue what's possible, together at equitable.com/careers.
