# Gain an edge for your future

With a retirement strategy that helps you grow and preserve wealth for a fulfilling future.

Retirement is about making the most of what you have, to achieve the freedom to pursue your passions. Whatever your vision of retirement holds, you can feel ready for life's surprises if:

- Your money works hard for you while you're building your savings — with innovative investment options and tax strategies that let your money grow tax-deferred.
- Your investments are well-diversified to help spread risk against potential market downturns in any one market sector.
- Your investments are partially protected from volatility in the market.
- Your investments will have greater flexibility, allowing you to increase market exposure when markets are performing well and reinvest gains with no waiting period.

Investment Edge® is an innovative variable annuity that helps create an investment portfolio with greater diversification, partial protection in the market and tax-deferred growth.

#### What's an annuity?

An annuity is a long-term financial product designed to help you save for retirement. It's a contract between you and an insurance company: you make an investment, and the company commits to future benefits for you, such as a source of income in retirement or a death benefit to your loved ones. All annuities contain certain limitations, so be sure to learn about the rules and potential risk before you invest.

## **Investment Edge®**

In the world of retirement planning, Investment Edge® is a tax-deferred variable annuity. It's designed with flexibility in mind, to help you build and preserve your retirement savings.

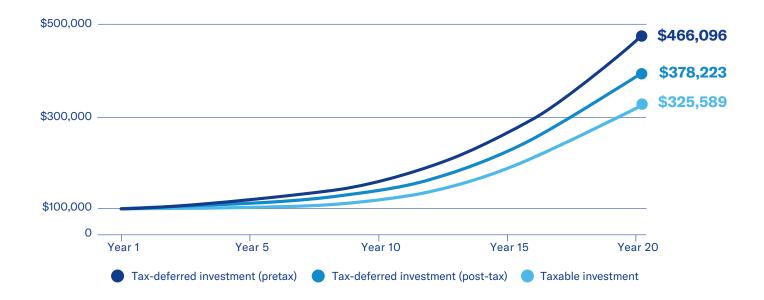

With tax deferral, you gain more than delaying when you pay taxes — you gain **control** over your taxes. Unlike traditional managed money accounts where you pay taxes when securities are bought or sold, **you** can decide when to use **your** money. With Investment Edge®, you can:

- Make changes to your investment allocation when your needs change, without immediate tax consequences.
- Automatically rebalance your portfolio to ensure your tax consequences are mitigated.
- · Keep more of your money working longer for you.

The chart below is a hypothetical illustration of the potential advantages of tax-deferred over taxable investments over time. The illustration assumes an initial investment of \$100,000 with an annual return of 8% (not guaranteed) and a federal tax rate of 24%.

### Don't allow taxes to hinder your financial growth

With tax deferral, you won't receive any 1099s,¹ which means you can avoid the negative impact of taxes on your portfolio returns, also known as **tax drag.** Higher tax rates or inefficient tax strategies can result in a larger tax drag, reducing the growth potential of your portfolio.

 $<sup>1\</sup>quad \hbox{A 1099 form reports income from self-employment earnings, interest and dividends.}$ 

This hypothetical chart does not represent actual performance of any specific product or investment. Withdrawals of tax-deferred earnings are subject to ordinary income tax treatment. A 10% federal tax may also apply if investors take the withdrawal before reaching age 59½. In addition, an investor should consider their current and anticipated investment horizon and income tax bracket when making an investment decision, as this illustration may not reflect these factors.

Investment Edge® offers flexibility to build a well-diversified portfolio with different approaches to investing.

Build your own diversified portfolio with access to more than 100 traditional investment options, ranging from core investments, including U.S. and international equity options, to alternative investments, which are low-correlated options that can provide further opportunities for diversification and risk-adjusted return.

1290

PIMCO

WELLINGTON MANAGEMENT®

BlackRock.

Diversification does not guarantee a profit, and diversification in Variable Investment Options (VIOs) does not protect against loss in a declining market.

Invest in preset portfolios designed for specific investment objectives, offering an easy, one-step approach to asset allocation.

#### Manager select portfolios

Well-known investment managers bring their experienced knowledge and disciplined processes to investment portfolios.

#### **Risk-based portfolios**

Asset allocation portfolios that use a diversified mix of asset classes and underlying funds to help provide consistent performance over time and may help mitigate volatility.

#### **Managed portfolio strategies**

Professionally managed strategic asset allocation portfolios with a tactical overlay, designed to help you realize your investment goals.

You can further diversify your portfolio by investing in Segments, an innovative investment option that tracks a well-known benchmark index of your choosing. Segments provide a way to take advantage of possible market gains, and if the Segment you choose offers a buffer, add a level of protection to your portfolio.

#### Lower portfolio cost

#### **Level of protection**

#### **Growth potential**

There are no portfolio-level expenses for amounts invested in Segments.

Choose the Segment Buffer that best suits your needs.

An opportunity for uncapped growth or growth up to set a cap rate.

#### Three steps to get you started:

Pick a time frame	2 Choose	a level of protection, if any	3	3 Choose an investment approach	
1 year or 5 years	-10%, -15%, -20% or -40%	No buffer for an enhanced growth opportunity	Five investment approaches		
Track on index for either	Elovibility to dial n	retection up or down	Dooidou	which handbrook index and investment	

Track an index for either 1 year or 5 years.

Flexibility to dial protection up or down over time.

Decide which benchmark index and investment approach suit your style and needs.

#### 1-year time frame

Investment approach	Level of buffer protection			
Standard	-10%	-15%	-20%	-40%
Dual Direction	-10%	-15%	-20%	
Step Up	-10%	-15%		
Dual Step Up	-10%	-15%	-20%	
Growth Multiplier	No buffer — 0%			

#### 5-year time frame

Investment approach	Level of buffer protection				
Standard	-10%	-15%	-20%		
<b>Dual Direction</b>	-10%	-15%	-20%		
Step Up	-10%				
Growth Multiplier	No buffer — 0%				

Please note that individuals cannot invest directly in an index. Due to spacing constraints, the index names in the chart below have been abbreviated. Please see the **Important information** section of this document for the full index names and descriptions.

#### Well-known indices to choose from:

S&P 500 Russell 2000® NASDAQ 100® MSCI EAFE MSCI Emerging Markets\*

#### **Flexibility**

With Investment Edge®, you have the flexibility to transfer out of and between investment options, including Segments, at any time, and doing so is cost-free and tax-free.<sup>2</sup> This can allow you to potentially lock Segment gains into a new investment.

#### **Upside potential**

**Individual investment options and packaged portfolios**More than 100 options

**Structured Investment Options**Growth Multiplier

#### A level of downside protection

**Structured Investment Option** 

Standard, Dual Direction, Step Up and Dual Step Up

You are protected against some downside risk, but if the negative return is in excess of the Segment Buffer, there could be substantial loss of principal because you agree to absorb all losses to the extent they exceed the protection provided.

<sup>\*</sup> Only available on -10% and -15% buffer options for the Standard Segment.

<sup>2</sup> You cannot transfer into an active Segment. Any new investment into the Structured Investment Option would be processed through the Segment Type Holding Account and transfer into a Segment at the next Segment Start Date. If you transfer out of a Segment prior to the Segment Maturity Date, you will receive the Segment Interim Value, which may be lower than your original investment in the Segment even where the index is higher at the time of withdrawal.

#### A good retirement strategy is one that lets you hone your edge for the future and smooth your tax liability over time

Investment Edge® supports your changing needs and priorities over time, with options that fit your life.

Tax-**Deferred** growth.

Well-Diversified investments.

**Defend** with levels of downside protection.

## Why Equitable?

Equitable is a U.S. financial services company that helps build fulfilling futures.

#### Courage. Strength. Wisdom.

A good financial strategy is designed to change as your life evolves, helping you pursue life's possibilities and prepare for life's uncertainties.

It starts with understanding your truths, wants and needs, so you can face your future with courage, strength and wisdom.

We commit to your future as if it were our own with an adaptive approach and powerful strategies, just as we've done for our clients since 1859.

Together, we'll work to turn today's goals into tomorrow's accomplishments.

#### Important information

**Standard Segment** — For Standard Segments, the Segment Rate of Return is equal to the index performance rate, less any contract fees, subject to the Performance Cap Rate and Segment Buffer.

**Dual Direction Segment** — Dual Direction Segments measure the performance of the index from Segment Start Date to Segment Maturity Date. If the corresponding index performance rate exceeds the Performance Cap Rate during this time period, you receive the Performance Cap Rate less any contract fees. If the index performance rate is between the Performance Cap Rate and Segment Buffer (inclusive of both), you receive the absolute value of the index performance less any contract fees. If the index performance rate is less than the Segment Buffer, the Segment Buffer will absorb up to the first 20% of the loss depending on the Segment Buffer you elect.

**Dual Step Up Segment** — For Dual Step Up Segments, the Segment Rate of Return is equal to the Performance Cap Rate if the index performance rate for that Segment is greater than or equal to the Segment Buffer or the index performance rate subject to the Segment Buffer if the index performance rate is less than the Segment Buffer.

**Growth Multiplier Segment** — Growth Multiplier Segments multiply positive index performance rates by a Multiplier Rate, less any contract fees, to increase the Segment Rate of Return. Growth Multiplier Segments are not subject to a cap rate.

**Step Up Segments** — For Step Up Segments, the Segment Rate of Return is equal to the Performance Cap Rate, less any contract fees, if the index performance rate for that Segment is greater than or equal to zero on the Segment Maturity Date.

S&P 500 Price Return Index — Includes 500 leading companies in leading industries of the U.S. economy, capturing approximately 80% coverage of U.S. equities. The S&P 500 Price Return Index does not include dividends declared by any of the companies included in this index. Larger, more established companies may not be able to attain potentially higher growth rates of smaller companies, especially during extended periods of economic expansion. S&P®, Standard & Poor's®, S&P 500® and Standard & Poor's 500® are trademarks of Standard & Poor's Financial Services LtC (Standard & Poor's) and have been licensed for use by Equitable Financial and Equitable America. Investment Edge® is not sponsored, endorsed, sold or promoted by Standard & Poor's, and Standard & Poor's does not make any representation regarding the advisability of investing in Investment Edge®.

Russell 2000® Price Return Index — Measures the performance of the small-cap segment of the U.S. equity universe. The Russell 2000® Price Return Index is a subset of the Russell 3000® Index, representing approximately 10% of the total market capitalization of that index. It includes approximately 2,000 of the smallest securities based on a combination of their market cap and current index membership. The Russell 2000® Price Return Index does not include dividends declared by any of the companies included in this index. Stocks of small and mid-size companies have less liquidity than those of larger companies and are subject to greater price volatility than the overall stock market. Smaller company stocks involve a greater risk than is customarily associated with more established companies. The Russell 2000® Index is a trademark of Russell Investments and has been licensed for use by Equitable Financial and Equitable America. The product is not sponsored, endorsed, sold or promoted by Russell Investments, and Russell Investments makes no representation regarding the advisability of investing in the product.

MSCI EAFE Price Return Index — A free float-adjusted market capitalization index that is designed to measure the equity market performance of developed markets, excluding the United States and Canada. The MSCI EAFE Price Return Index does not include dividends declared by any of the companies included in this index. International securities carry additional risks, including currency exchange fluctuation and different Government regulations, economic conditions and accounting standards. The product referred to herein is not sponsored, endorsed or promoted by MSCI, and MSCI bears no liability with respect to any such product or any index on which such product is based. The prospectus contains a more detailed description of the limited relationship MSCI has with Equitable Financial and Equitable America and any related products.

NASDAQ 100° Price Return Index — Includes 100 of the largest domestic and international nonfinancial securities listed on the NASDAQ Stock Market based on market capitalization. The index reflects companies across major industry groups, including computer hardware and software, telecommunications and biotechnology. Non-diversified investing may be focused in a smaller number of issues or one sector of the market that may make the value of the investment more susceptible to certain risks than diversified investing. It does not contain securities of financial companies including investment companies. The NASDAQ 100° Price Return Index does not include dividends declared by any of the companies included in this index. **MSCI Emerging Markets Price Return Index** — A free float-adjusted market capitalization index that is designed to measure equity market performance of emerging markets. International securities carry additional risks, including currency exchange fluctuation and different government regulations, economic conditions and accounting standards.

Withdrawals from an annuity contract are taxable as ordinary income and, if made prior to age 59½ may be subject to an additional 10% federal tax. Withdrawals may also be subject to withdrawal charges. Amounts invested in an annuity's portfolio are subject to fluctuation in value and market risk, including loss of principal. There are fees and charges associated with a variable annuity contract, which include, but are not limited to, operations charges, sales and withdrawal charges, administrative fees and additional charges for optional benefits. See the prospectus for complete details.

Investment Edge® does not offer tax deferral beyond what is already offered in other qualified plans, and if purchasing with qualified money, clients should consider other features or benefits.

This brochure is not a complete description of all material provisions of the variable annuity contract. This brochure must be preceded or accompanied by a current prospectus. The prospectus contains more complete information, including investment objectives, risks, charges, expenses, limitations and restrictions.

The contingent withdrawal charge for Investment Edge® declines from 6% over a 5-year period for the Series B product.

Please read the prospectus and any applicable supplements and consider this information carefully before purchasing a contract.

There are certain contract limitations and restrictions associated with an Investment Edge® contract. For costs and complete details of coverage, speak to your financial professional/insurance-licensed registered representative. Certain types of contracts, features and benefits may not be available in all jurisdictions. Equitable Financial and Equitable America offer other variable annuity contracts with different fees, charges and features.

Not every contract or feature is available through the same selling broker-dealer.

This brochure was prepared to support the promotion and marketing of Equitable Financial and Equitable America variable annuities. The company, its distributors and their respective representatives do not provide tax, accounting or legal advice. Any tax statements contained herein were not intended or written to be used, and cannot be used, for the purpose of avoiding U.S. federal, state or local tax penalties.
