

Market Stabilizer Option® II

Segment performance for Segments that matured on May 15, 2026

A Segment's performance is applied to amounts remaining in the Segment on the Segment Maturity Date.^{1,2}

The MSO II Indexed Options offer varying levels of downside protection combined with the potential for growth opportunities in various market conditions.³ MSO II Segment performance is applied to the policy after a 1-year Segment Term. We offer three Standard Indexed Options, a Step Up Indexed Option and a Dual Direction Indexed Option, all of which are tied to the performance of the underlying S&P 500® Price Return Index. The Segment performance is calculated differently for each Indexed Option and is based, in part, on the applicable downside protection buffer and Growth Cap Rate. You can invest in one or more of the five MSO II Indexed Options in addition to the variable investment options. The table below shows the Segment performances that were achieved on the latest Segment Maturity Date. Past performance is not indicative of future results.

S&P 500® Price Return Index	Standard Indexed Options		
	Latest Segment Maturity Date	Downside protection buffer	Declared Growth Cap Rate ⁴
		-10%	17.00%
	May 15, 2026	-15%	13.50%
	-20%	11.75%	
Step Up Indexed Option			
May 15, 2026	-10%	11.00%	
Dual Direction Indexed Option			
May 15, 2026	-10%	13.50%	

- The Segment performance is also referred to as the **Index-Linked Rate of Return** and the **Segment Index-Linked Rate of Return**.
- The Segment performance will be applied at the end of the Segment Term on the Segment Maturity Date and only to amounts remaining within the Segment until the Segment Maturity Date. The Segment performance will not be applied before the Segment Maturity Date. Any amounts disbursed from the Segment prior to the Segment Maturity Date will forfeit any Segment performance that might otherwise have been applied on the Segment Maturity Date, and the amounts disbursed will be subject to an Early Distribution Adjustment (also referred to as **Segment Market Value Adjustment**), which could further reduce policy values. Refer to the prospectus for more information.
- The Market Stabilizer Option® II is available with new issues of **VUL Optimizer®**, **VUL Optimizer® Max**, **VUL Incentive Life ProtectSM** and **COIL Institutional SeriesSM**.
- The current declared Growth Cap Rates will not change during the Segment at the start of which they were declared. Future declared Growth Cap Rates may be higher or lower than past declared Growth Cap Rates, but the declared Growth Cap Rate for any Indexed Option will never be less than its corresponding guaranteed minimum Growth Cap Rate. The guaranteed minimum Growth Cap Rate for the Standard Indexed Option with -10% downside protection buffer is 5%. The guaranteed minimum Growth Cap Rate for the Standard Indexed Option with -15% downside protection buffer, the Step Up Indexed Option and the Dual Direction Indexed Option is 4.50%. The guaranteed minimum Growth Cap Rate for the Standard Indexed Option with -20% downside protection buffer is 4.25%.

Variable life insurance is sold by prospectus only. The prospectuses and supplement(s) include more complete information about the policy, including risks, charges, expenses, investment objectives and investment options. You should carefully read the prospectus,

the Market Stabilizer Option® II supplement and any other supplements. Consider the information carefully before investing or sending money. Please contact your financial professional for a copy of the current prospectus.

S&P 500® Price Return Index — Includes 500 leading companies in leading industries of the U.S. economy, capturing approximately 80% coverage of U.S. equities. The S&P 500® Price Return Index does not include dividends declared by any of the companies included in this index. Larger, more established companies may not be able to attain potentially higher growth rates of smaller companies, especially during extended periods of economic expansion. S&P®, Standard & Poor's®, S&P 500® and Standard & Poor's 500® are trademarks of Standard & Poor's Financial Services LLC (Standard & Poor's) and have been licensed for use by the company. Market Stabilizer Option® II is not sponsored, endorsed, sold or promoted by Standard & Poor's, and Standard & Poor's does not make any representation regarding the advisability of investing in Market Stabilizer Option® II.

Variable life insurance products are issued by Equitable Financial Life Insurance Company (Equitable Financial) or Equitable Financial Life Insurance Company of America (Equitable America), an AZ stock company with an administrative office located in Charlotte, NC, and co-distributed by affiliates Equitable Advisors, LLC (member FINRA, SIPC) (Equitable Financial Advisors in MI & TN) and Equitable Distributors, LLC. When sold by New York state-based (i.e., domiciled) Equitable Advisors Financial Professionals, life insurance is issued by Equitable Financial Life Insurance Company.

Equitable is the brand name of the retirement and protection subsidiaries of Equitable Holdings, Inc., including Equitable Financial Life Insurance Company (Equitable Financial) (NY, NY); Equitable Financial Life Insurance Company of America (Equitable America), an AZ stock company with an administrative office located in Charlotte, NC; and Equitable Distributors, LLC. The obligations of Equitable Financial and Equitable America are backed solely by their claims-paying abilities. Equitable Advisors is the brand name of Equitable Advisors, LLC.

Life Insurance: • Is Not a Deposit of Any Bank • Is Not FDIC Insured • Is Not Insured by Any Federal Government Agency
• Is Not Guaranteed by Any Bank or Savings Association • Variable Products May Go Down in Value
