AXA Equitable Life Insurance Company (NY, NY)
What is Investment Edge®? It’s a variable annuity1 designed to help investors work toward their goals. It offers:

- Diversification — More than 120* investment options to help investors strive to capture growth opportunities and manage volatility.
- Tax deferral — Defer current taxes to help maximize growth potential.
- Tax-efficient distributions — Flexible withdrawal options are available, including the Income Edge payment program.1 The contract owner must opt out of the Protected Premium Death Benefit upon electing Income Edge.

Flexibility for investors. Protection for their families. With Investment Edge®, the contract owner’s beneficiaries will automatically receive the remainder of the account value, for no additional fee, when he or she passes away. For an added layer of protection, the contract owner may elect the Protected Premium Death Benefit to build a legacy for their family while also accessing a robust investment option lineup.

The Protected Premium Death Benefit lets the contract owner:

- Pay for the benefit when they need it. If the account value falls below the death benefit amount, the contract owner will pay a charge for the death benefit during that period. If the account value is higher than the death benefit, there is no charge for the death benefit during that period.
- Cancel the benefit at any time if their needs change. If the contract owner decides that they don’t want or need a death benefit anymore, the benefit can simply be canceled.
- Invest any way the investor wants. Working with their financial professional, investors can choose from a wide array of investment options, including opportunities such as alternative investments and sector portfolios, risk-based portfolios and global investments.

The benefit can be paid for when it’s needed

The contract owner can pay for the amount of protection their account value does not cover.

1 A deferred variable annuity, such as Investment Edge®, is a long-term financial product designed for retirement purposes. In any contractual agreement in which payment(s) are made to an insurance company, which, in turn, agrees to pay out an income or lump-sum amount at a later date. Withdrawals from an annuity contract are taxable as ordinary income and, if made prior to age 59½, may be subject to an additional 10% federal tax. Withdrawals may also be subject to withdrawal charges.

We cannot change the fee for the first 2 contract years. Clients will have a minimum of 30 days’ notice before a fee change may apply.

The charges below for the Protected Premium Death Benefit can be increased or decreased at our discretion within current and maximum charges. We cannot change the fee for the first 2 contract years. Clients will have a minimum of 30 days’ notice before a fee change may apply.

The “gap” is assessed on a daily basis.

1 In this hypothetical example, the “gap” is assessed on daily basis.

1 Should be noted that Income Edge is not the only way to generate “tax-efficient distributions,” as this may be accomplished through annuitization of the annuity contract. Income Edge is not a guaranteed income benefit. Payments from Income Edge are based on account value and duration.

The charges below for the Protected Premium Death Benefit can be increased or decreased at our discretion within current and maximum charges. We cannot change the fee for the first 2 contract years. Clients will have a minimum of 30 days’ notice before a fee change may apply.

Death Benefit Fee
The contract owner pays a fee only if their account value drops below the death benefit amount. The fee charged is only on the “gap” between the death benefit amount and the current account value. The “gap” is assessed on a daily basis.

1 Optional benefit may be elected by investors age 85 and younger. If Protected Premium Death Benefit is not elected, the death benefit is a return of account value.

2 When applicable, the fee can also be charged upon death claim, contract surrender or drop of the benefit.
The contingent withdrawal charge declines from 6% over a 5-year period for the Series B product.
