Face your future with confidence

Even when you're not sure what the future holds.

Most people have more than one goal for retirement, and those goals often change over time. Today, there are plenty of unique challenges, especially when planning for retirement income. Whatever matters most to you, you can feel ready on your own terms if:

- You feel confident you'll have the income you need for the retirement lifestyle you envision — for as long as you live (and your spouse, too, if elected).¹
- Your income has protection from market ups and downs.
- Your money works hard for you while you're building your savings — with efficient investment options and tax strategies that let your money grow tax-deferred.
- You're well-positioned to take advantage when interest rates go up — but can rely on a guaranteed floor just in case they don't.²

Retirement Cornerstone® is an innovative variable annuity that helps grow and protect your income stream — and what you'll leave behind — with flexibility designed to fit your life.

Retirement Cornerstone®

Flexibility to support retirement on your terms

A fulfilling future means something different to everyone. In the world of retirement planning, Retirement Cornerstone® is a "multistage variable annuity." It's built so that, as your path to retirement unfolds, you can decide how to optimize your income stream.³

Grow your wealth

As you're building your savings, Retirement Cornerstone®'s investment options offer flexibility to match your portfolio to your own goals, needs and tolerance for risk, now and in the future. With the **Investment Account**, you can access over 100 investment options to build a customized portfolio without being locked into any decisions you make today about what you might need in the future. With the **Protected Benefit Account**, you'll choose from a focused range of investment options built to adapt to your changing needs, particularly as your tolerance for risk may change as you get closer to retirement. Both accounts offer a well-diversified set of investments that may help smooth the effect of market ups and downs and keep you focused on the long term. Most importantly, you can pursue tax-deferred growth, which allows your original investment, plus your earnings, to compound and grow, without having to pay taxes on your growth until later.⁴

What does compounding do for you?

Compounding creates a snowball effect that happens when your earnings produce even more earnings! This helps your money grow faster as time goes on because it puts your money to work for you.

What's an annuity?

An annuity is a long-term financial product designed to help you save for retirement. It's a contract between you and an insurance company: you make an investment, and the company commits to future benefits for you, such as a source of income in retirement or a death benefit to your loved ones. Some annuities, including Retirement Cornerstone[®], can let you protect your retirement income while investing for potential growth. All annuities contain certain limitations, so be sure to learn about the rules and potential risk before you invest.

Create an income stream

As you get closer to retirement, you want more confidence that the money you need for expenses, travel and the goals you've set will be there. Protect your retirement with guaranteed income for life through Retirement Cornerstone®'s Guaranteed Minimum Income Benefit (GMIB).

Make sure your income stream has different ways to grow

With the Guaranteed Minimum Income Benefit, you can take advantage of three ways to potentially increase income in retirement.

1. Market-based increase

Lock in possible market gains with annual resets to the income base when your investments do well.

2. Interest rate-based increase

Take advantage of potential interest rate increases that can help grow your income, compound each year and have the potential to get you a higher rate if Treasury rates rise, with a guaranteed floor if they don't.

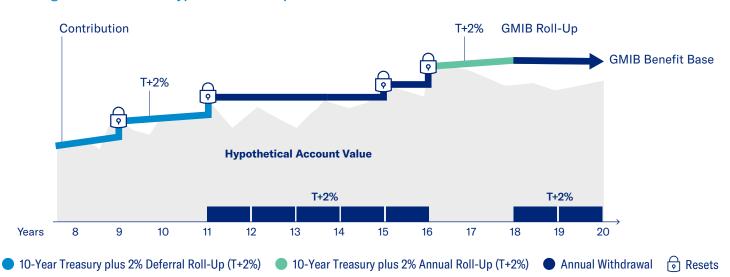

3. "Keep the change"

If you take less than your maximum annual withdrawal amount to start, then you get to keep the change! All of this "change" compounds on top of the amount that helps us figure out your possible future income.³

The GMIB Multiyear Lock offers a guaranteed Roll-Up Rate locked in for the first 7 contract years.

Flexibility for you... and a spouse

Retirement Cornerstone® offers built-in spousal protection that's easy to elect or change as your needs change

Options include the two-for-one Guaranteed Minimum Income Benefit (for spouses who are joint owners of the contract) and spousal continuation benefits (to continue the contract for a surviving spouse at no additional cost when an individual owner passes away). It's a well-rounded retirement plan that allows you to select the level of coverage that best fits your needs as an individual or a couple.¹

Plan for a future beyond your own

When loved ones are involved, there's always more to consider than your individual priorities. By setting aside funds through a death benefit, you can rest assured that your legacy will live on for your loved ones in the ways most important to you.

Retirement Cornerstone®'s death benefit options have something for everyone.

 Return of principal — a cost-effective, no-fee way to preserve and pass on the principal of your original investment, adjusted for withdrawals you take during your lifetime.

Options to leave your loved ones a Guaranteed Minimum Death Benefit (GMDB) (fees apply).

These include:

- Highest anniversary value locks in the highest year-end value you earn, up to age 85, to ensure your loved ones receive no less than your best endof-contract-year account value, adjusted for the withdrawals you take.
- RMD Wealth Guard helps you take the income required by the IRS without reducing your death benefit, while still giving you the opportunity to build what you pass along by capturing any market growth.

A good retirement strategy protects the income you need to retire. A great retirement strategy does it on your own terms, in your own time.

Retirement Cornerstone® responds to your changing needs and priorities over time, with options that fit your life.

Your income, your timeline, your life and loved ones planned for.
