For Structured Capital Strategies® 16 contracts only, generally those contracts applied for on or after 2/22/2016, depending on when Series 16 was approved in your state.

The Performance Cap Rate is not known before the Segment starts.

The Performance Cap Rate — For Standard Segments, the Performance Cap Rate is the highest Segment Rate of Return that can be credited on a Segment Maturity Date.

Structured Capital Strategies® is a variable and index-linked deferred annuity contract and a long-term financial product designed for retirement purposes. Simply stated, an annuity is a contract between you and an insurance company that lets you pursue the accumulation of assets. You may then take payments or a lump-sum amount at a later date. In Structured Capital Strategies®, you invest to accumulate value on a tax-deferred basis in one or more of our Variable Investment Options and/or in one or more of the Segments comprising the Structured Investment Option. There are fees and charges associated with Structured Capital Strategies®, which include a Variable Investment Option fee that covers administrative expenses, sales expenses and certain expense risks. The Variable Investment Option fee does not apply to amounts held in a Segment.

The value of the investment more susceptible to certain risks than diversified investing. This Structured Capital Strategies® variable annuity is not sponsored, endorsed, authorized, sold or promoted by the Select Sector Trust, or SSgA FM. Neither the Select Sector Trust nor SSgA FM makes any representations or warranties to purchasers of the variable annuity or any member of the public regarding the advisability of investing in the variable annuity. Neither the Select Sector Trust nor SSgA FM has any obligation or liability in connection with the operation, marketing, trading or sale of the variable annuity.

iShares® Dow Jones U.S. Real Estate Index Fund (Not available in all jurisdictions.) — Seeks investment results that correspond generally to the performance of the Dow Jones U.S. Real Estate Index, which is the underlying index. The underlying index measures the performance of the Real Estate industry of the U.S. equity market, including real estate holding and developing and real estate investment trust (REITS) subsectors. The iShares® Dow Jones U.S. Real Estate Index Fund is an exchange-traded fund. The performance of the iShares® Dow Jones U.S. Real Estate Index Fund may not replicate the performance of, and may underperform the underlying index. The price of the iShares® Dow Jones U.S. Real Estate Index Fund will reflect expenses and fees that will reduce its relative performance. Moreover, it is also possible that the iShares® Dow Jones U.S. Real Estate Index Fund may not fully replicate or may, in certain circumstances, diverge significantly from the performance of the underlying index. Because the return on your Segment Investment (subject to the Performance Cap and downside Segment Buffer protection) is linked to the performance of the iShares® Dow Jones U.S. Real Estate Index Fund and not the underlying index, the return on your Segment Investment may be less than that of an alternative investment linked directly to the underlying index or the components of the underlying index. The investment performance of the iShares® Dow Jones U.S. Real Estate Index Fund is only based on the closing share price of the Index Fund. The iShares® Dow Jones U.S. Real Estate Index Fund does not include dividends and other distributions declared by the Index Fund. Non-diversified investing may be focused in a smaller number of issues or one sector of the market that may make the value of the investment more susceptible to certain risks than diversified investing.

Energy Select Sector SPDR Fund (Not available in all jurisdictions.) — Seeks to provide investment results that correspond to the price performance of the S&P® Energy Select Sector Index. The Energy Select Sector Index includes companies from the following industries: oil, gas, and consumable fuels and energy equipment and services. Because the return on the Energy Select Sector Investment (subject to the Performance Cap and downside Segment Buffer protection) is linked to the performance of the Energy Select Sector SPDR® Fund and not the underlying index, the return on your Segment Investment may be less than that of an alternative investment linked directly to the underlying index or the components of the underlying index. The investment performance of the Energy Select Sector SPDR® Fund is only based on the closing share price of the fund. The Energy Select Sector SPDR® Fund Segment does not include dividends and other distributions declared by the fund. Non-diversified investing may be focused in a smaller number of issues or one sector of the market that may make the value of the investment more susceptible to certain risks than diversified investing.

Gold SPDR Shares (Not available in all jurisdictions.) — Seek to reflect the performance of the price of gold bullion. The value of the gold held by the fund will be determined based on the London Bullion Market Association (LBMA) Gold Price PM USD. Because the return on your Segment Investment (subject to the Performance Cap and downside Segment Buffer protection) is linked to the performance of the SPDR® Gold Shares and not the performance of the price of gold, the return on your Segment Investment may be less than that of an alternative investment linked directly to the performance of the price of gold. The investment performance of the SPDR® Gold Shares Segment is only based on the closing share price of the fund. The SPDR® Gold Shares Segment does not include dividends and other distributions declared by the fund. Non-diversified investing may be focused in a smaller number of issues or one sector of the market that may make the value of the investment more susceptible to certain risks than diversified investing.

AXA Equitable Life Insurance Company has sole legal responsibility to pay amounts it owes under the contract. An owner should look to the financial strength of AXA Equitable for its claims-paying ability. Unlike an Index Fund, the Structured Investment Option provides a return at maturity designed to provide a combination of protection against certain decreases in the index and a limitation on participation in certain increases in the index. The Structured Investment Option does not involve an investment in any underlying portfolio. Instead, it is an obligation of AXA Equitable Life Insurance Company. Variable annuities are subject to market risk, including loss of principal. Structured Capital Strategies® is a registered service mark of AXA Equitable Life Insurance Company, New York, NY 10104. Structured Capital Strategies® (February 2019 version) is issued by AXA Equitable Life Insurance Company, New York, NY 10104. Co-distributed by affiliates AXA Advisors, LLC (member FINRA, SIPC) and AXA Distributors, LLC. Visit our website at equitable.com or contact us at (212) 554-1234 to find out the availability of other contracts. Contract form #: 2016SCSBBASE-I-B[A-B], 2016SCSBBASE-I-C-A[B], 2016SCSBBASE-I-ADV-[A-B] and any state variations.

The obligations of AXA Equitable Life Insurance Company are backed solely by its claims-paying ability. © 2019 AXA Equitable Life Insurance Company, All rights reserved. Structured Capital Strategies® is patent-protected. Patent no. 8,645,261.
